Tasks for STF-IEA2024

- Promoting STF-IEA2024 in their networks and encouraging submissions
- Reviewing submitted abstracts and full papers
- All lecture (podium presentation) sessions will be conducted in a hybrid format.

Abstract Submission, Round 1	Sep 1 2023 – Oct 31 2023
Abstract Acceptance Notification, Round 1	Nov 30 2023
Abstract Submission, Round 2	Nov 1 2023 – Feb 29 2024
Abstract Acceptance Notification, Round 2	Mar 15 2024
Full Paper Submission (optional)	Jan 1 2024 – Apr 15 2024

Tasks for STF-IEA2024

- Proposal for special sessions

Workshop	The objective of this program is to share specific knowledge and engage the audience in developing their skills.
Symposium	This program involves a collection of at least four papers, possibly accompanied by group discussions. The coordinators are responsible for recruiting papers for symposia. Symposia may extend over multiple 90-minute time slots if needed, and proposals should indicate such requirements.
Panel Discussion	Panel Discussion: In this program, a group of knowledgeable participants discusses a given issue. If audience participation is intended, it can be labeled as an "interactive" panel discussion. Panel participants should be identified in advance by the coordinators.
HFE-x Session	Inspired by TEDx conferences, this program consists of short talks on HFE topics, broader in scope than traditional research or practice papers. The format allows for a maximum of 18 minutes per speaker, without an audience question-and-answer period. Other formats can be suggested in proposals.
Alternative Forms	Participants are encouraged to propose interesting events, simulations, "game-show" style activities, or any other engaging activity that might interest the conference attendees.

- Key Dates

Proposal Submission Due - February 29, 2024

Acceptance Notification - November 30, 2023 (1st round), March 15, 2024 (2nd round)

Full paper submission due (if applicable) - April 15, 2024
